Abstract: The Romanian readership became acquainted with John Steinbeck and his work in the communist years, when his writings have been championed mainly according to the theme of social injustice and protest against capitalism. Fortunately, to this day, critical interest in Steinbeck literature has not faded away, and new translations from the American author continue to reach Romanian readers. The aim of this paper is to explore the extent to which his reputation and work have been reassessed over the two decades of critical reception in post-communist Romania. [ABSTRACT FROM AUTHOR]

Steinbeck, John

Steinbeck, John (1902-1968), an American author, won the 1962 Nobel Prize in literature. Steinbeck's best-known fiction sympathetically explores the struggles of poor people. His most famous novel, *The Grapes of Wrath* (1939), won the 1940 Pulitzer Prize. The novel tells the story of the Joads, a poor Oklahoma farming family, who migrate to California in search of a better life during the Great Depression of the 1930s. Steinbeck effectively demonstrated how the struggles of one family mirrored the hardship of the entire nation. Through the inspiration of the labor organizer Jim Casy, the Joads learn that the poor must work together in order to survive. See [Grapes of Wrath](#). The

Steinbeck set much of his fiction in and around his birthplace of Salinas, California, where he was born on Feb. 27, 1902. His first novel, *Cup of Gold* (1929), is based on the life of Sir Henry Morgan, a famous English pirate of the 1600s. Steinbeck's next work, *The Pastures of Heaven* (1932), is a collection of stories about the people of a farm community near Salinas. In this work, Steinbeck focused on the struggle between human beings and nature. *Tortilla Flat* (1935) deals with migrant workers and poor farmers. *In Dubious Battle* (1936) realistically portrays labor strife in California during the 1930s. *Of Mice and Men* (1937) is a short novel that Steinbeck adapted into a popular play in 1937. It is a tragic story about a physically powerful farmworker with mental retardation and his best friend and protector. See [Of Mice and Men](#). Steinbeck's other short novels include *The Moon Is Down* (1942), *The Red Pony* (1945), and *The Pearl* (1947). A collection of his short stories was published as *The Long Valley* (1938).

Steinbeck's most ambitious novel is *East of Eden* (1952). It follows three

published as *The Long Valley* (1938).

Steinbeck's most ambitious novel is *East of Eden* (1952). It follows three generations of a California family from the 1860s to World War I (1914-1918). The title refers to the family's strife, which parallels the conflict between the Biblical figures of Cain and Abel. Steinbeck's last novel was *The Winter of Our Discontent* (1961). It is a modern story of moral failure.

Steinbeck wrote the humorous novels *Cannery Row* (1945), *The Wayward Bus* (1947), *Sweet Thursday* (1954), and *The Short Reign of Pippin IV* (1957). In his nonfiction work *Travels with Charley* (1962), Steinbeck described a cross-country trip with his pet poodle. A selection of Steinbeck's other nonfiction was published in 2002, after his death, as *America and Americans*. Steinbeck retold legends about King Arthur in *The Acts of King Arthur and His Noble Knights*, left unfinished at his death and published in 2007. Steinbeck also wrote screenplays for several films, notably *Viva Zapata!* (1952). He died on Dec. 20, 1968. From 1994 to 2007, the Library of America published authoritative texts of 18 of Steinbeck's books in four volumes.

Introduction

SUPPORTERS ARGUE

Recent Republican-led changes to voting procedures have threatened the rights of low-income and minority voters. The U.S. Supreme Court was wrong to void the federal oversight provision of the Voting Rights Act, and new protections are necessary to ensure that African Americans and others retain their political voice.

OPponents ARGUE

It is easier than ever for Americans to cast their ballots, and the strong-arm federal tactics of the Voting Rights Act are no longer necessary. Distrust in the integrity of the electoral system is widespread among the American public, and Democrats should not obstruct commonsense measures to prevent voter fraud.

5. There is a list of articles. Let's pick the "Anti-Ballistic Missile Treaty" article.

Anti-Ballistic Missile Treaty

On May 26, 1972, Soviet leader Leonid Brezhnev and U.S. president Richard Nixon signed a treaty at the Strategic Arms Limitation Talks (SALT) in Helsinki to limit the number of anti-ballistic missiles (ABMs) that each country could possess. As a defensive measure during the cold war, the United States and the Soviet Union both developed anti-ballistic missile systems (ABMs) to intercept hostile intercontinental ballistic missiles (ICBMs). As a result, the arms race reached a stalemate: Neither country could attack the other for fear of massive retaliation. Consequently, U.S. president Lyndon Johnson initiated arms limitation talks with the Soviet Union in 1967.

Apart from limiting the number of U.S. and Soviet ABMs to 200 apiece, the ABM Treaty restricted the number of sites that each country could use to house ABMs to two each, and it prohibited both countries from further developing or testing components for ABMs. An additional protocol was signed on July 3, 1974, to limit the number of ABM sites to one each. Partly in response to the terrorist attacks of September 11, 2001, the United States withdrew from the ABM Treaty in June 2002.
